

K-Love is an important part of my local residency. A month ago, KLOVE was off the air for 24 hours and everyone including myself felt like something was missing. The talk at the water cooler was, "I hope that KLOVE gets back on the air soon" KLOVE makes a positive influence on the public. The type of music they play is uplifting without commercials. I am not afraid that my kids will hear something they should not. KLOVE is needed in our community, please do not take it away by giving FM translator service a lower priority. KLOVE is a high priority in our lives, community, and outreach. Please make it stay that way. Thank you for the opportunity to comment. Shawn
